

Repair Price Worksheet

Build a consistent price list: aftermarket vs premium parts, labor minimums, add-ons

RepairAmigo
repairamigo.com

YOUR PRICING RULES

Labor per repair type (screen / battery / port / board)	
Minimum labor (no repair goes below this)	
Part allowance (shipping, breakage, returns) %	
Round up to prices ending in	
Card surcharge you pass on (where allowed) or absorb %	
Rush / same-day charge	
Add-ons (screen protector, adhesive, cleaning)	
Review prices every	

FORMULA

Price = part cost + allowance (part cost $\times$ %) + labor, then round **up**. If labor is below your minimum, use the minimum. Add tax as your local rules require.

Worked example (made-up numbers)

	Aftermarket	Premium
Part cost	\$38.00	\$72.00
Allowance 10%	\$3.80	\$7.20
Screen labor	\$45.00	\$45.00
Subtotal	\$86.80	\$124.20
Price (round up to ...9)	\$89	\$129

Quote both tiers so the customer chooses, and write the choice on the ticket.

PRICE LIST WORKSHEET

[illegible]

Check supplier prices before each review. A model with no price on this sheet should be quoted by the manager, not guessed at the counter.
